

SPENCO LIMITED

Fire Pump Specialist

*An authorized distributor of the
world's leading fire pump since 1987*

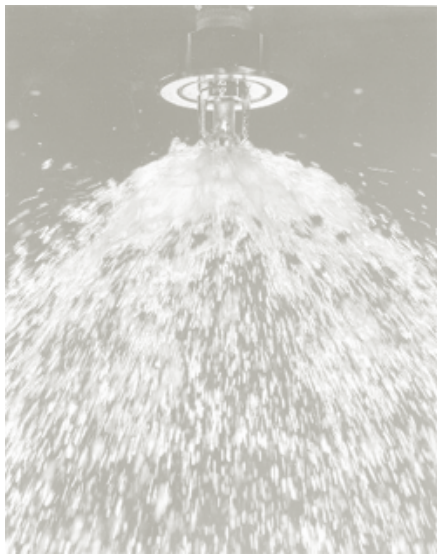

A

BOUT US

Spenco Limited has operated in the Thai local pump business since 1987 as an engineering and related services firm. Since then, Spenco have developed strategic alliances and partnerships from various parts of the world.

The company has provided many high quality products to support the growth and development of Thailand and neighboring markets. From these efforts, these would be a driving force on development in term of safety, security and water supply in the industrial, commercial and municipal.

[The name of SPENCO has been synonymous with fire pumps. Spenco is the first company to introduce "**Fairbanks Morse**" Vertical Turbine Pumps as fire-fighting pumps in Thailand and neighboring countries]

The company is a pump importer and distributor in Thailand. Representing many reputation pump manufacturers such as PENTAIR PUMP GROUP of USA, PRICE PUMP Company of USA, PULLEN PUMP of England, APOLLO PUMP of Germany, and ELBI Diaphragm Pressure Tank from Italy, along with listed Diesel & Electric drivers.

The name of Spenco has been synonymous with fire pumps. Spenco is the first company to introduce "**Fairbanks Morse**" (now known as "**Fairbanks Nijhuis**") Vertical Turbine Pumps as fire-fighting pumps in Thailand. We later added other products to satisfy the increasing demands of our customers.

According to the trust and confidants of customers, the company has the high potential to support its customers on design, consult, set up product and system to meet the customer's needs.

To fulfill customer's requirements, SPENCO combines best quality product sales and good service both before and after sales. Adding value and forming partnership with customers, the growth of service must be matched with sales volume, for the highest satisfactions.

The company cooperative with the American and European manufacturers. All product is certified by the quality control from the supplier's factories. Particularly, the standard of firefighting pump are complied, listed and approved by

UL (Underwriter Laboratories)

FM (Factory Mutual)

NFPA (National Fire Protection Association)

CE (Conformité Européenne)

All these institutions are worldwide accepted by international firefighting pump market. The company is a sales representative and pump distributor for reputation pump products such as FAIRBANKS NIJHUIS.

P
